Presents

**FIRST PILLAR & CLIMBING ROSE IN 16 YEARS
TO WIN THE NATIONAL ALL AMERICA AWARD!**

Golden Showers

(P.A.F.)

1957 A.A.R.S. WINNER

**NO OTHER ROSE HAS THESE SPECTACULAR FEATURES
THE FINEST PILLAR & CLIMBING ROSE SINCE 1941**

LEADING ROSARIANS AGREE: "NO OTHER ROSE LIKE THIS IN FLORICULTURAL HISTORY."

Since 1941, no other rose in this class has combined sufficient beauty, hardiness, and flowering qualities to win this award.

GOLDEN SHOWERS is the first winter-hardy, everblooming Pillar and Climbing rose that blooms continuously from early spring until late fall.

GOLDEN SHOWERS lends itself to any landscape treatment: as a beautifully arching, self-supporting Pillar Rose, 8 to 10 feet tall, having literally a shower of golden flowers.

Trained as a climber, this 1957 A.A.R.S. winner will reach up and along a trellis or a fence. Or, it can be shaped as an eye-level symmetrical bush.

The buds and flowers are enchanting, combining exquisitely shaped daffodil yellow, long pointed buds with fragrant, high centered, 25 to 30 petaled, $4\frac{1}{2}$ to 5 inch yellow open blooms. Almost thornless, with long beautifully decorative bronze cutting stems, Golden Showers lends itself to spectacular cut flower arrangements.

In the short time when blooms are waiting to burst forth in golden splendor, the plant is magnificently clothed clear to the ground with large, dark green, glossy foliage. Golden Showers is so vigorous that it is highly resistant to rose diseases such as mildew and black spot.

NEW! A 3 WAY FUNCTIONAL ROSE

The Only Variety That Can Be Grown 3 DIFFERENT WAYS!

*Spectacular New Rose landscaping
effects now possible with
GOLDEN SHOWERS*

1. As a self-supporting Pillar Rose — By allowing the canes to remain unpruned for two years, the tops of the canes arch over very gracefully, creating a compact Pillar Rose 8 to 10 feet high. The abundance of golden yellow flowers is truly breathtaking from the first breath of spring!

2. As an Eye-Level rose bush — By pruning away the two year old wood canes at the base each spring — and heading back the year old canes to about five feet — growth is restrained. This results in a beautifully symmetrical plant with a profusion of daffodil yellow blooms at eye level.

3. As a WINTER HARDY Everblooming Climber — One may also train the canes against a building or trellis as a regular climber, arching them over to produce hundreds of gorgeous blooms that rival the finest Hybrid Teas!

2 SPECTACULAR BRAND NEW ROSE CREATIONS

By the famed hybridist MILT WHISLER (creator of Sun Valley, Easter Parade, Yours Truly, etc.)

City of LAS VEGAS

PROCLAMATION

WHEREAS, most cities have an official flower, and no particular flower has ever been chosen as the official flower of the City of Las Vegas; and

WHEREAS, the climate of Southern Nevada is so well suited to the culture of roses, which bloom nine months of the year; and

WHEREAS, the City of Las Vegas has received numerous petitions from garden clubs requesting the "Las Vegas Rose" be named the official flower of the community,

NOW, THEREFORE, to advertise and publicize nationally another good feature of Las Vegas and with the idea of promoting Las Vegas as the "ROSE CITY OF THE DESERT," I hereby proclaim the "Las Vegas Rose" as the official flower of the community.

CITY OF LAS VEGAS

LAS VEGAS

(P.A.F.)

ALL THE WARMTH AND GLOW OF A DESERT SUNRISE FOR THE FIRST TIME CAPTURED IN A ROSE. The LAS VEGAS, Germain's exciting new rose introduction for 1957, is as fabulous as the city of Las Vegas which it symbolizes. The color of the LAS VEGAS is a radiant warm salmon pink with a golden sheen at the base of each petal. The large, long pointed buds open into high centered blooms revealing the warm glowing color of the rose. As the blooms further develop the petals cup and the spectacular color becomes more intense, giving an even deeper radiance to the flower. The blooms, measuring up to 6 inches across, are

produced freely on exceptionally long cutting stems. LAS VEGAS is a truly long lasting cut flower that will bring its radiant beauty into your home for days longer than most roses.

Petals have a satiny lustre that imparts a depth and warmth to the bloom, such as that seen in a desert sunrise.

The plants bearing these gorgeous flowers are vigorous and well branched. The foliage covers the plant well, with semi-glossy dark green leaves.

Gayest, Brightest Rose Ever Developed

A Fiesta of Roses on a Single Bush!

This truly spectacular new Floribunda, acclaimed one of the most unusual developed in this century, introduces gay, vivid colors—bright as a Fiesta—to achieve one of the most dazzling displays ever created in the rose world!

Imagine these exquisitely shaped buds of bright yellow, suffused with vivid red, opening to lovely 4-inch blooms of deep yellow—then turning various bright shades of deep rose pink—maturing to a brilliant cerise red. As the blooms open, the petals begin to quill

into a spectacular dahlia form. These excitingly vivid and fragrant flowers are borne in great profusion—both in clusters and singly—and bloom again and again all season long. The MEXICALI ROSE bush grows 4 to 5 feet tall, is clothed with bronzy foliage and is extremely disease resistant. It provides strong stems for cut flowers, and also makes an excellent hedge.

ALL AMERICA CAMELLIA

SELECTION WINNER FOR 1957

CINDERELLA

(Pat. 1281)

Germain's is proud to present the **FIRST All America Camellia Selection Winner** in Horticultural history. An All America Camellia Selections has been formed to judge and select the very finest of the new Camellia introductions, and each year (provided the new introductions are awarded a winner) you can get brand new, never before offered varieties, just like the All-America Roses.

This is the first year in the history of horticulture that an All America Camellia Selection has been offered to the public.

CINDERELLA has the distinction of being the **FIRST Camellia** to win such an award. Large semi-double blossoms of deep carmine at the base gradually blends to pale rose, which in turn blends into silky white at the tips of the petals. Tips are ruffled and deeply notched, and the fresh creamy stamens make this a most beautiful flower. Blooms are produced freely on handsome, stocky plant with bright emerald green foliage.
